Wescom Credit Union had blue water coming from their faucets and hard water was causing a multitude of maintenance problems. After researching water solutions, Wescom found LifeSource Water Systems and solved their problems. Now water in the building is clean, clear and maintenance problems have been greatly reduced. They have great tasting water from every faucet and water fountain in the facility and they have eliminated the expense and hassle of plastic water bottles.

In 1934, 13 Pacific Telephone employees formed the Telephone Employees Credit Union. Now, more than 70 years after it was formed, Wescom Credit Union is a premier financial institution with more than 300,000 members, over \$3 billion in assets, and 44 branches throughout seven counties in Southern California. Wescom is now one of the largest credit unions in the country.
